KITCHENER-WATERLOO AND DISTRICT ATSSA NEWSLETTER

November 2007

OCTOBER MEETING:

Green Performance Systems was our October sponsor, guest speaker and *CEO Lorne Shantz*, presented "*Fleet Performance Optimization Program*." We would like to thank both *Lorne Shantz* and *Tom Hinsperger* for sharing their knowledge and experience with us and also introducing the *Green Performance Systems* to our membership.

NOVEMBER MEETING:

Advanced Wheelend Technologies is our hosts for the evening, *Claude Drouin V.P. Marketing, Technical Support* would like us all to participate in an informative and educational evening dedicated to **AIR BRAKE MAINTENANCE** conducted in the traditional spirit of our monthly meetings, Their dynamic team has prepared an in depth analysis of the following topics; brake over-stroke or out of adjustment (still #1 cause of brake infractions), brake component selection for proper service application, competence and efficiency of technicians and correlations between brake electronics and brake foundation.

Their #1 goal is to provide an enjoyable, relaxing and educational evening while exploring proven, concrete and innovative solutions. These actions could improve both output and reliability of actual braking systems, while reducing manpower-time for maintenance. Ultimately, reduced downtime helps the industry to meet the daily challenges for improved profitability and prepare for the tougher rules lurking ahead.

Your participation adds to the success of this organization and contributes to maintenance advancements of the trucking industry. We hope you will make time in your busy schedules to join us. *Road safety is every body's business.*

MEMBERSHIP:

We would like to welcome the following new members Colin Campbell of Cambridge Concrete, Bob Rouleau of Locomote Systems Inc. Please make them feel welcome when you meet the new members.
